

Project 2 Feedback

Friday, November 13, 2020 11:36 AM

- +: We took lots of things into account, making the model more precise
- +: Context of energy consumption in the USA
- Δ : Spent too much time on the details, not enough on the high-level results
- Δ : 3D Graphs don't work
- Δ : Explain the average error metric more, explain others
- Δ : Include a schematic
- +: Good partner time split
